

SINTU MISHRA

Software Engineer | Backend | Systems | Robotics

📍 Delhi NCR, India 📞 +91-7667315773 ✉️ sintumishra22201@gmail.com

🌐 linkedin.com/in/sintu-mishra-3o11 🐙 github.com/SintuMishra 🌐 Portfolio

Professional Summary

Computer Science and Data Science graduate with hands-on industry experience in backend development, Python automation, Linux systems, full-stack applications, and engineering workflows. Skilled in Java, Spring Boot, Python, Node.js, REST APIs, PostgreSQL, Docker, Git, and modern web development, with strong foundations in Data Structures, OOP, DBMS, Operating Systems, and Computer Networks.

Technical Skills

Languages: Java, Python, SQL, JavaScript, TypeScript, C

Backend: Spring Boot, Node.js, Express.js, FastAPI, REST APIs, JWT, RBAC

Frontend: React.js, Next.js, Vite, Tailwind CSS, HTML5, CSS3

Databases: PostgreSQL, MySQL, MongoDB, Prisma ORM

Systems & Tools: Linux, Docker, Git, GitHub, Postman, SSH, Computer Networking

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Professional Experience

Addverb Technologies

May 2026 – Present

Advanced Robotics Intern

Noida, India

- Developed Python-based internal tools for engineering reporting, data validation, operational visibility, and workflow automation across robotics data-collection environments.
- Automated shift-wise and date-wise operational reporting, reducing dependency on manually maintained spreadsheets and improving visibility into engineering operations.
- Worked with Linux-based robotics workstations, SSH, networking, device communication, recording services, storage systems, and structured data workflows in a production engineering environment.
- Diagnosed software and system issues using logs, performance measurements, network and storage diagnostics, and structured root-cause analysis; created setup, troubleshooting, and operational documentation for repeatable workflows.

Selected Engineering Projects

InfraFlow ERP | React, Node.js, Express, PostgreSQL, JWT, Docker

GitHub | Live

- Developed a full-stack construction ERP supporting operations, procurement, finance, accounting, and multi-company workflows with secure authentication and PostgreSQL-backed persistence.
- Designed REST APIs, role-aware application workflows, relational data models, and Docker-based development processes for a production-oriented architecture.

SinFleet ERP | TypeScript, Next.js, Node.js, Express, PostgreSQL, Prisma

GitHub

- Developed a multi-tenant fleet management ERP SaaS for vehicles, drivers, trips, fuel, expenses, payments, clients, and operational reporting using tenant-aware data models and role-based workflows.
- Built backend APIs and relational data workflows for managing fleet operations while maintaining logical separation between tenant-specific business data.

Team Task Manager | React, Node.js, Express, PostgreSQL, Prisma, JWT

GitHub | Live

- Built a full-stack team collaboration platform with JWT authentication, RBAC, project membership, protected REST APIs, and PostgreSQL-backed project and task management.

Campus Issue Tracker | Java, Spring Boot, Spring Security, PostgreSQL, React

GitHub | Live

- Developed a role-based issue management system with Spring Boot REST APIs, secure authentication, ticket lifecycle workflows, administrative operations, and PostgreSQL persistence.

Education

GL Bajaj Institute of Technology and Management

2022 – 2026

B.Tech in Computer Science and Data Science

CGPA: 7.95/10

Bihar School Examination Board

2022

Class XII

75.8%

Certifications & Achievements

Cisco Networking Academy: CCNA: Switching, Routing, and Wireless Essentials | Introduction to Cybersecurity

Deloitte Australia: Data Analytics Job Simulation | **IBM SkillsBuild:** Artificial Intelligence Certificate – Grade A+

Problem Solving: Solved 200+ Data Structures and Algorithms problems using Java
